**SK CERTIFICATE**  
**of constancy of performance of essential characteristics of product**

**SK01-ZSV-0403**

In compliance with the Act No.133/2013 Coll. on the constructional products and amending and supplementing certain acts as amended, the certificate applies to the construction product,

**Fire resistant shutter with retractable steel loft ladder,  
type LMF120**

used as a non-loadbearing horizontally oriented shutter with fire separating function for fire exposure from below, installed in interior in the ceilings of family houses, administrative and multifunctional buildings; the main intended use is giving access for persons. The shutter is maintained closed while the lock is in the secured position. The product is used under conditions defined in Assessment and verification of constancy of performance No. C01/23/0011/2401/SC, issued by FIRES, s.r.o., Batizovce, Slovak Republic on 07. 07. 2023. The product is

placed on the market under the name or trade mark of

**FAKRO Sp. z o.o.**  
**Wegierska 144a, 33-300 Nowy Sacz, Poland**

and produced in the manufacturing plant

**FAKRO PP Sp. z o.o.**  
**Wegierska 144a, 33-300 Nowy Sacz, Poland.**

This certificate attests that all provisions referring to the assessment and verification of constancy of declared performance of essential characteristics of product (thereinafter: "performance assessment") and performances described in SK Technical Assessment

**SKTP/22/0005/2401**  
**issued by Approved Body for Technical Assessment No. TP01,**  
**FIRES, s.r.o., Batizovce on 27. 02. 2023**

under system I for the performance set out in this certificate are applied and that the factory production control conducted by the manufacturer is assessed to ensure the

**constancy of performance of the construction product.**

This certificate was first issued on 07. 07. 2023 and will remain valid as long as neither the SK Technical Assessment, the construction product, the assessment and verification of constancy of performance methods nor the manufacturing conditions in the plant are modified significantly, unless suspended or withdrawn by the approved product certification body.
